

SCHIER

LIFETIME GUARANTEED **GREASE INTERCEPTORS** | Made in the USA 

“Super-capacity Grease Interceptor” (SCGI):

Means an indoor or outdoor passive unit, third-party certified to retain more than four times the amount of pounds (lbs) of grease than the flow rating in gallons per minute (GPM) and is designed to separate fats, oils, and grease from wastewater while allowing water to flow through and meets specs defined in section 5(b)(3) of this general permit. SGIs take up less space than the grease trap/FOG Interceptor.
